

The Annex Teen Clinic helps young people take charge of their sexual health by providing confidential health services and education. We believe young people make great decisions when provided with non-judgmental, fact-based, and inclusive health information. We center youth voices and support youth leadership and decision-making in all aspects of our programming. We strive to create a community that recognizes bodily autonomy and expands health access. We seek to continuously approach our work with an intersectional lens. We are committed to anti-racism and LGBTQ+ inclusion as essential to a just and ethical healthcare practice.
